WORK EXPERIENCE

Software Development Intern | Lyre Softronics, Ambattur, Chennai

May 2025 – Jul 2025

- Built and maintained 3+ full-stack web applications using React.js, Node.js, Express.js, and Laravel — including the production GSTBillBooks desktop app used for financial billing.
- Designed and optimised database schemas and queries across 5+ tables in MySQL and MongoDB Atlas, improving data retrieval speed for backend services.
- Integrated 10+ RESTful APIs and managed data flow between frontend and backend, ensuring accuracy and consistency across all systems.
- Collaborated with a team of 4 developers to debug, test, and deploy solutions using Git; generated structured reports for financial billing data used by the client.

PROJECTS

Event Management Web Application |

Jan 2025 – Feb 2025

- Developed a full-stack event platform supporting 3 core features — event creation, calendar view, and media upload (images & videos) — for end-to-end event management.
- Designed MongoDB Atlas schemas across 4+ collections to store event records, user data, and media metadata, enabling fast structured data querying.
- Built 8+ REST APIs with Node.js and Express.js for CRUD operations; React.js frontend with dynamic filters and calendar views reducing manual lookup time.

Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, JavaScript
