WORK EXPERIENCE

Software Development Intern — Lyre Softronics, Ambattur, Chennai	May 2025 – Jul 2025
- Built and maintained 3+ full-stack web applications using React.js, Node.js, Express.js, and Laravel — including the production GSTBillBooks desktop app for financial billing. - Designed and optimized database schemas across 5+ tables in MySQL and MongoDB Atlas, improving data retrieval speed for backend services. - Integrated 10+ RESTful APIs; managed frontend-to-backend data flow ensuring accuracy and consistency across all modules. - Collaborated in a 4-member Git-based development team to debug, test, and deploy solutions; generated structured financial billing reports for client delivery.	

PROJECTS

Event Management Web Application	Jan 2025 – Feb 2025
Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, JavaScript	
- Developed a full-stack event platform with 3 core modules — event creation, calendar view, and media upload (images & videos) — for end-to-end event lifecycle management. - Architected MongoDB Atlas schemas across 4+ collections for event records, user data, and media metadata, enabling fast and structured data querying. - Built 8+ REST APIs with Node.js and Express.js for CRUD operations; implemented a React.js frontend with dynamic filters and calendar views, reducing manual lookup time significantly.
